25X1A2g

1. Source [REDACTED] is requested to identify each type of Soviet AIRFLOT aircraft boarded during journey in the USSR. On any leg of air travel within the USSR did source board any aircraft having four engines? If so, describe the aircraft. What type of engines did the aircraft have, reciprocating (propeller) or jet? If source did not travel in the above type aircraft, did he see any AIRFLOT aircraft with four engines? If so, where and when; describe the aircraft.

2. During USSR travel did source note any extension construction to the main runways of civil airfields. If so, where, when, and describe extension details.

3. During travels did source observe any Soviet airframe plant(s). If so, the following is requested:

- a. Date and time observed and location of plant.
- b. What type aircraft were observed on the factory airfield?
- c. How many aircraft seen, type?
- d. If factory observed at night, was factory lighted, was the plant obviously working?
- e. Was there any obvious new building construction on the plant site? Where, dimensions, and building type.

4. If the source can answer any of the above questions, I/AR would like to participate in debriefing him.
